Holbrook Mission Trip

Students had the enriching experience of touching lives and offering service by spending half of their spring break on a mission trip. A group of around 35 students made their way to Holbrook Academy in Arizona on March 23-28. The students made a difference in this community by weeding the campus, participating in worships for the school, helping in the kitchen, passing out evangelical flyers in the area, and clearing space by demolishing two trailer houses. The way they reached out the most to this place was by getting to know and spend time with the kids who attend school there. Our students connected with these children and shared God's love with them. Most of the kids there need love and attention that is not provided at their homes. We asked them what they needed in terms of material items, and one thing that they lacked was jackets. Jackets are such a simple item that we take for granted, and this news impacted our school. After the students came back, the school decided to continue to help Holbrook by selling t-shirts to be able to provide the Holbrook kids with jackets and other supplies.

Music Department Benefit Concert

The Glendale High School auditorium was filled with fun and excitement on Sunday, March 9, as the band, chorale, and jazz band performed songs that fit the theme “Road trip.” The benefit concert raised funds for the music tour to Arizona that will take place in late April.

Senior Class Trip

The Senior Class started their spring break early, as they left for Hawaii on March 13. This trip provided a time where the class could spend time together and enjoy themselves before graduation. The trip included many great activities such as visiting Dole Plantation, experiencing the swap meet, exploring the town, and seeing great scenery. They were even able to have fellowship with Hawaiian Mission Academy and San Fernando Valley Academy. Seniors were excited to enjoy the nice beaches of Hawaii and cherish the memories they made as a class.
